

M.S. Assistantship: Forest Science

"MULTIFUNCTIONAL MANAGEMENT OF NATURAL ORIGIN SOUTHERN PINE FORESTS TO IMPROVE ECOSYSTEM SERVICES"

The School of Forest Resources at the University of Arkansas-Monticello is seeking a highly motivated M.S. student interested in natural and plantation origin southern pine stands in terms of traditional forest commodities, carbon offset credits and bio-feedstock production potential.

The 2-yr graduate assistantship includes \$15,000/yr stipend and a tuition + fee waiver.

Qualifications: Applicants should have an undergraduate degree in forestry, ecology, natural resources management, or related fields, and a minimum 2.7 GPA (or 3.0 GPA for the last 60 hours) is required. GRE scores should exceed 1000 for verbal + quantitative. Individuals need to be self-starters, able to work outdoors during inclement conditions, and have a valid driver license.

Applications: Start date for this assistantship is flexible. Applications are being accepted for the Spring, Summer or Fall 2010 semester. For additional information or to apply, please contact: Dr. Jamie Schuler, University of Arkansas-Monticello, School of Forest Resources, P.O. Box 3468, Monticello, AR 71656. E-mail: schuler@uamont.edu; Phone: 870-460-1448.
